### God does math different!

December 1, 2020

Ain't that the truth. As the year 2020 comes to an end, we marvel at how God does math.

Starting in March we began to subtract, but God began to add. Expenses were reduced, but staff hours were increased. Camp programs and retreats were cancelled, but new day events were scheduled. Fee income went to zero, but Camp Conquest donors and friends gave beyond our expectations.

If giving continues, we will end the year at financial break-even.

Yes, that means that without any fee income from camps or retreats, Camp Conquest has a good chance to cover all of our expenses for the year due to the generosity of our donors and friends.

Would you please consider a year-end gift to Camp Conquest to help us meet this goal?

We believe that God has an ongoing plan for Camp Conquest in the coming year. We believe that a week of summer camp is the best tool for evangelism and discipleship available to the church today. So, we are busy planning summer camp 2021. Check out the website for dates and details of the upcoming summer ministry.

Thank you for your faithful support in 2020. Thank you for being part of God's unusual method of math. We rejoice in what God has done, and we look forward to seeing you at camp soon.

Serving with you at camp,

Michael R. Gehlert  
Executive Director

Help us reach our year-end goal of break even!  
Thank you.

By creatively offering alternative programs, Camp Conquest was able to host a variety of day events allowing our friends to enjoy time 'up on the hill'.

*Change Lives!*

*Be Changed!*
